Sistematización de la innovación en la PYME a partir de las oportunidades sostenidas de I+D que ofrece el FP7:

Zamudio 22/ 06 / 2006

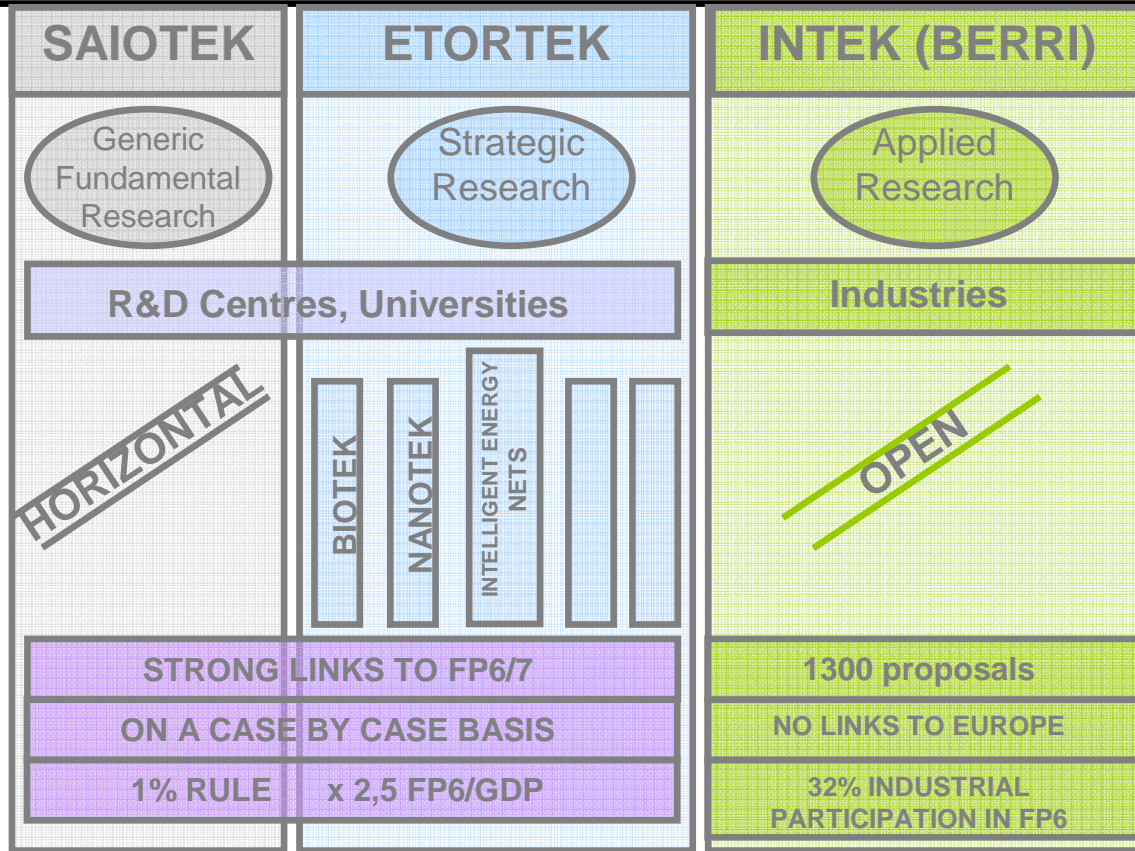

1 Basque Country in ERANET Projects:

3 official Programmes from DTI/Basque Government

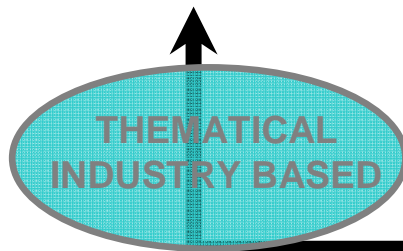

Beneficiaries

Priority Areas

European Added Value

ERANET,
THE SOLUTION
FOR EUROPEIZATION

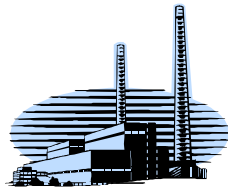

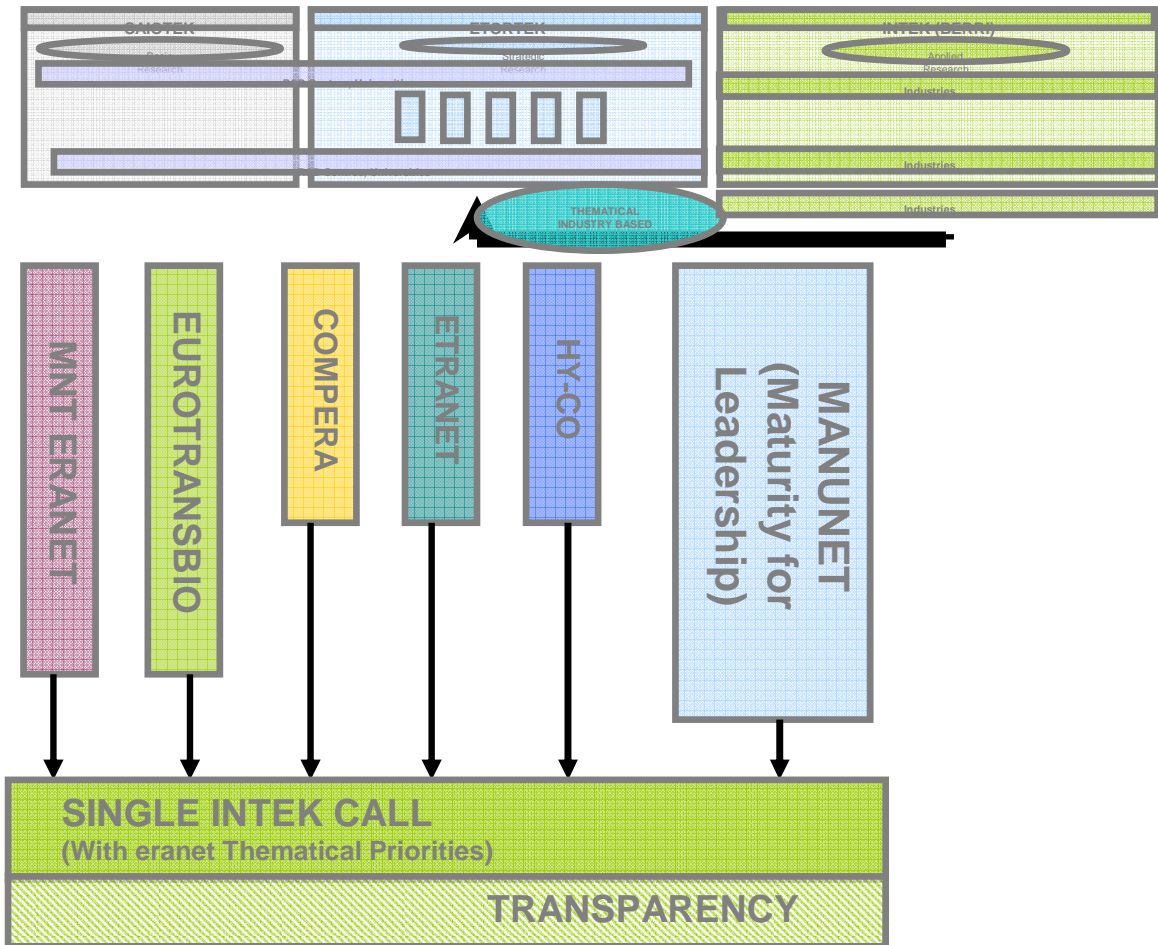

- Only selected topics
- Reinforcing Industry in Strategic Research
- Industry to Europe

2 Basque Country in ERANET Projects:

STRATEGY
inserted in the PCTI
2006-2009 / Basque
Government

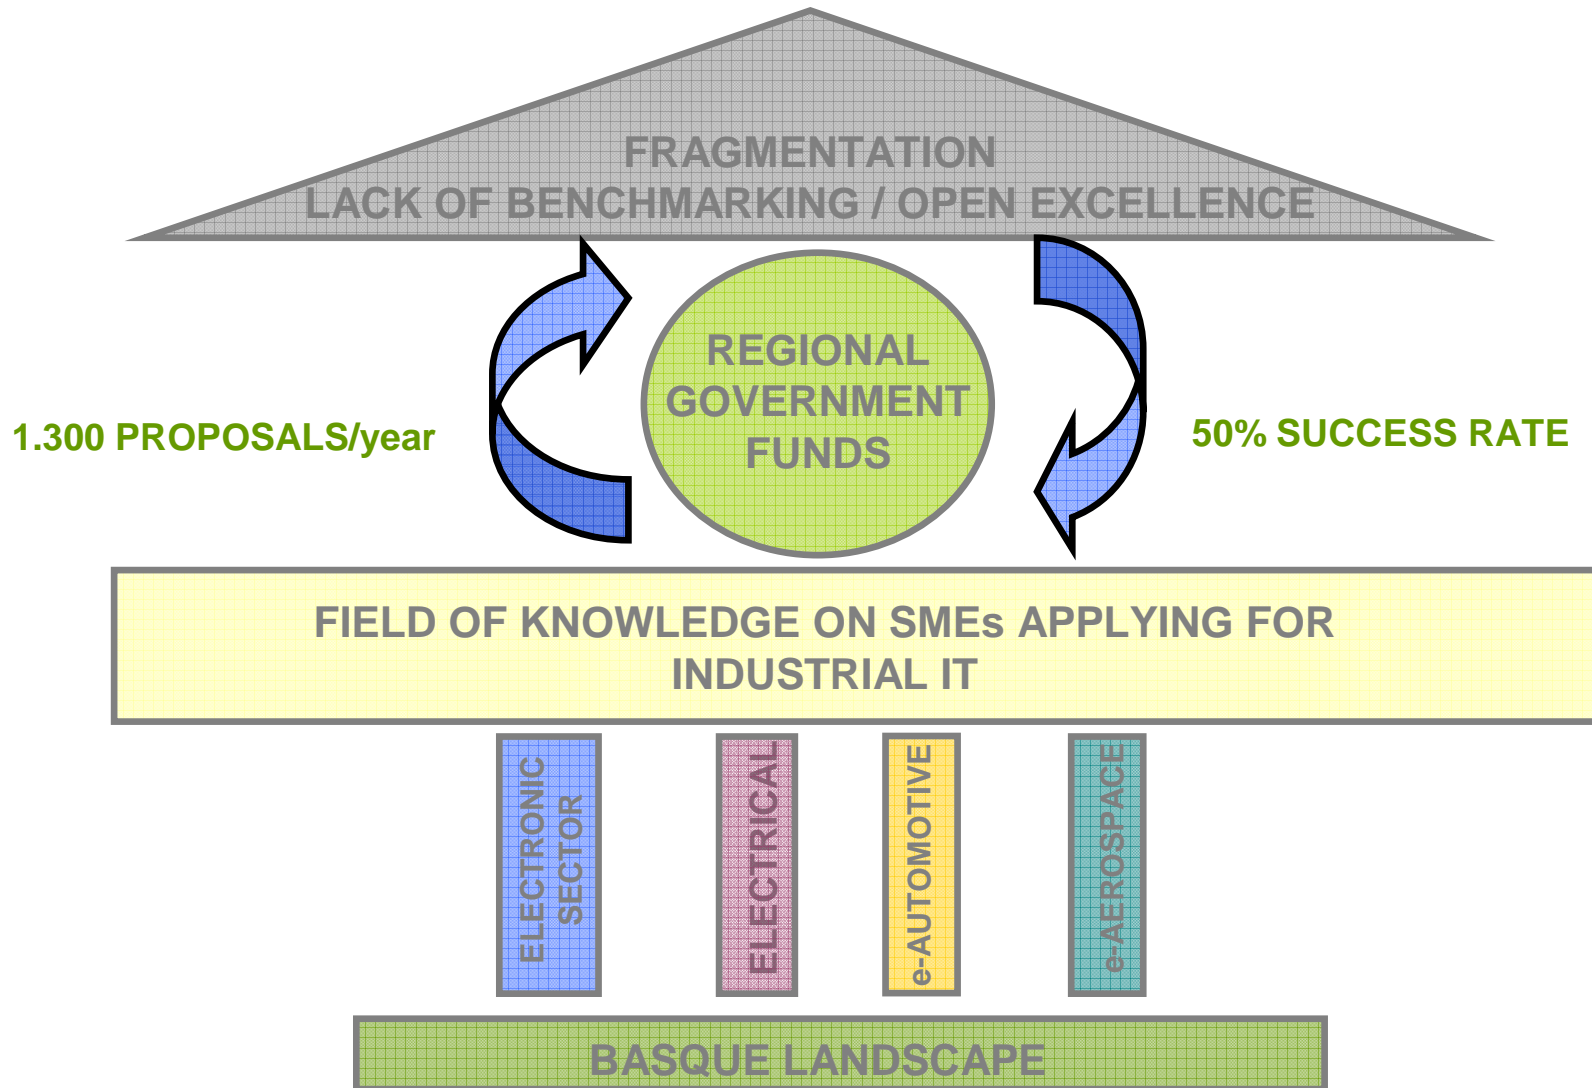

ACTION LINE

COMMON PROCEDURES & CRITERIA & TIMINGS

INDUSTRY BASED

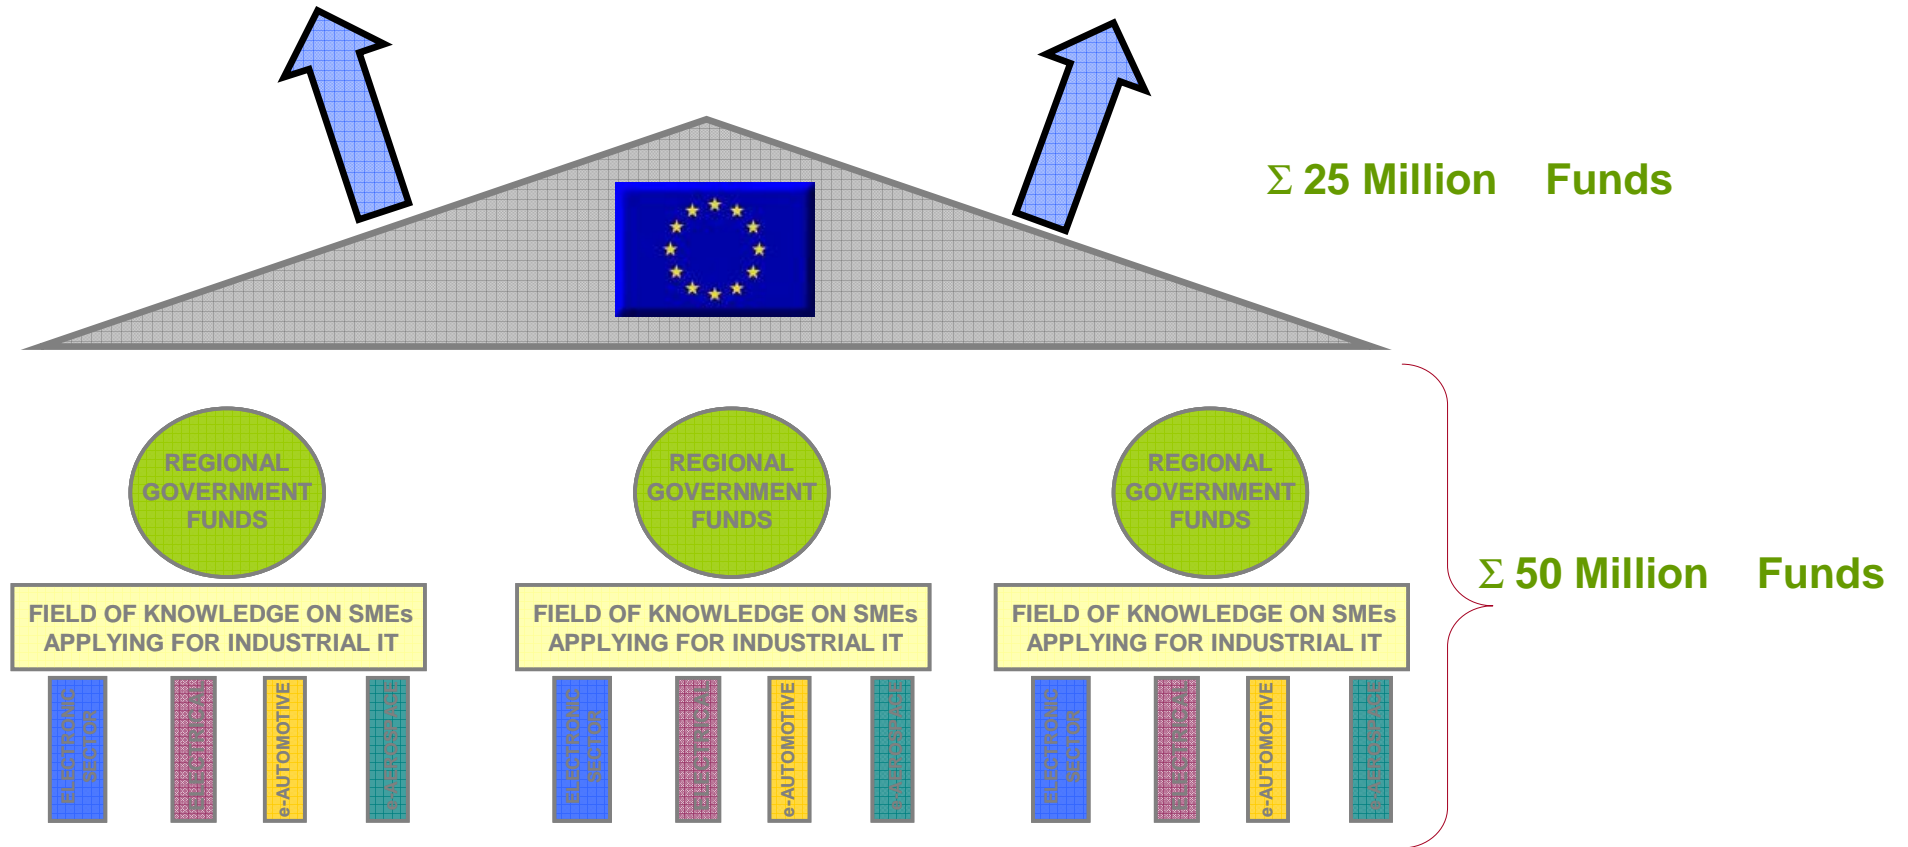

2 Basque Country in ERANET Projects:

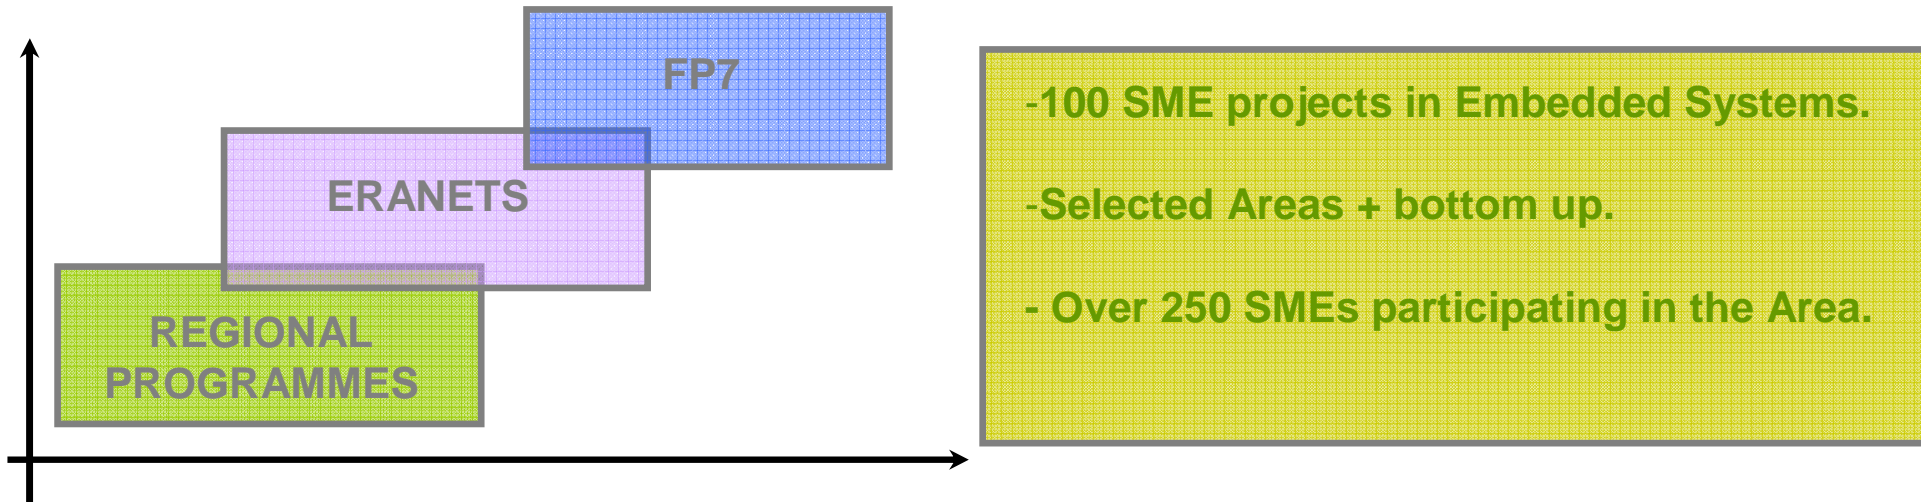

2 Basque Country in ERANET Projects:

OVERCOMING FRAGMENTATION
BARRIERS

INCREASING CRITICAL MASS
FUNDS

3 Lessons learned from Basque Government ERANET:

- ❖ The **WHAT** contribution: topics selected from SRA/ARTEMIS, calls...
- ❖ The **HOW** instrument: implementation of innovation, forecasted in FP7, that may produce A LARGE AND WELL ROOTED SME MOBILISATION.

5 Conclusion:

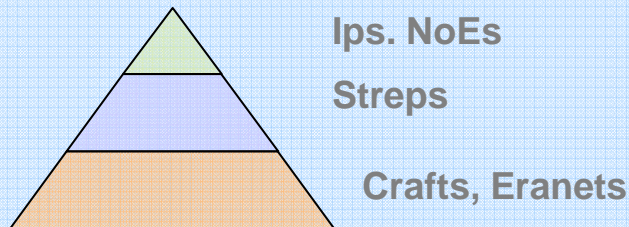

- Based on sound and robust experience from:

AGENCIES
POLITICIANS
USERS/PROJECTS
COMMISSION

... The ERANET model should be kept, not oversized, perhaps condensed, and gradually evolve to a number of ERANET-PLUS experiences,

....Making this strategy one of the KEY TOOLS of FP7 in order to:

- Involve the regions in a REAL/PRACTICAL way.
- Involve the industry in EUROPE, (Its participation in FP6 is lower than 18% average, and in areas like BIO is less than 9%).
- Build up the segment of regional research projects with a global european strategy, a serious contribution towards ERA.
